

Our Philosophy is simple; we want to make your educational visit a reality

The future of educational travel

Terre & Eau has created innovative programs to ensure that every student has the chance to experience the benefits of educational travel:

Student Travel Fund: each group can make a request to receive funds for students in need.

Community Improvement Project: your group takes on a project to improve your community and you receive a significant discount on your travel.

On-line Raffle: we provide the prizes, send you a kit with all the necessary materials and tally all the money you've raised.

As our name indicates, we specialize in French and French Immersion groups; language learning is integrated into every aspect of your itinerary.

Discover Canada

From coast to coast, Canada has an incredible diversity of cultures, languages, and history to explore.

In Ottawa, participants can get a first hand understanding of politics and learn about our country's compelling history by visiting over 12 national museums.

In Montréal, students can explore the heart of Québécois culture in a world class city that seamlessly blends cosmopolitan flavour with a reverence for its colourful past.

In Toronto, your group can experience one of the most culturally diverse cities in the World, while also taking in some of Canada's most iconic sites and attractions.

In Québec City, a walk among the ramparts of the fortified city will transport you back in time to Old-World Europe; right in your own backyard.

We don't try to be all things to all people; we specialize in Canada's four premiere student-travel destinations

From our Founder

My motivation is starting Terre & Eau, was to create a company that put its resources towards supporting groups in need. I am convinced that it is possible for a company to offer high-quality, fully customized travel packages at a reasonable price, while still providing innovative fundraising and financial assistance to its clients.

Our success - today and in the coming years - will be an affirmation of this principle.

At Terre & Eau, we take pride in being a small business with a big heart. We listen to our clients so that we can deliver unique features and activities that will ensure a fun, safe and memorable experience for every participant.

If you would like to visit Toronto, Ottawa, Montréal or Québec City, if your group is French speaking or French Immersion, if you want a company to work with you constructively to make your trip a reality, you're in the right place!

If you have any questions or would like to learn more, we encourage you to contact us. I would be delighted to personally respond to your inquiry and help you in any way I can.
